# Interesting facts:

- **WHAT IS THE SYMBOL OF SCOTLAND?**
  - 1) Golfers
  - 2) Bagpipes (волынка) with Scottish skirt

  - 4) A unicorn and thistle
- Scotland has almost 800 islands;
- Golf was invented in Scotland in the 15th century;
- In the USA and Canada, taken together, as many Scots live as in Scotland itself - about five million;
- Only about one percent of the Scottish population speaks Scottish (Gaelic);

Scotland is a paradise for those who want to test their strength. A seemingly innocuous (безобидный) hill can easily turn out to be an impregnable (неприступный) peak, a summer walk can become an Arctic expedition, and crossing a tiny river will turn into an unexpected rafting. But stunningly (оглушающе) beautiful views, traces of ancient history at every turn and a sexy Scottish accent redeem (исправлять) everything.

Thank you for your attention 😊
